SUMMARY

Final-year B.Tech Computer Science student passionate about web development and machine learning. Hardworking team player looking for an opportunity to grow.

EDUCATION

B.Tech, Computer Science — Rajasthan Technical University (2022–2026) · CGPA 8.4/10

SKILLS

Python, JavaScript, React, Node.js, Express, MongoDB, SQL, Pandas, NumPy, scikit-learn, Git, HTML, CSS, REST APIs, Data Structures and Algorithms

EXPERIENCE

Web Development Intern — BrightLeaf Solutions, Jaipur (May 2025 – Jul 2025)

- Responsible for building React components for the company dashboard.
- Developed 12 REST API endpoints in Node.js and Express, cutting average response time by 35%.
- Worked on bug fixes and various UI improvements.

PROJECTS

Student Performance Predictor — Python, scikit-learn, Streamlit

- Trained a random forest model on 5,000 student records reaching 87% accuracy.
- Built an interactive Streamlit app so teachers can flag at-risk students early.

Campus Event Portal — React, Node.js, MongoDB

- Helped with the backend and database design for event registrations.
- Implemented JWT authentication and role-based access for 3 user types.

ACHIEVEMENTS

- Top 10 out of 180 teams in Smart India Hackathon internal round (2024).
- Solved 300+ problems on LeetCode and GeeksforGeeks.
